<p>OCR Canada Ltd AGE VERIFICATION</p>	<p><u>Link</u> OCR Canada Ltd. is a recognized industry leader in the delivery of effective solutions for mobile computing, barcode scanning, wireless infrastructure. We continue to aid companies to gain competitive advantage by utilizing our broad range of barcode and wireless LAN equipment to increase operational efficiency and decrease costs.</p>	
<p>Advanced Public Safety Public Safety - Citations</p>	<p><u>link</u> Advanced Public Safety, Inc (APS) is a leading software development company creating innovative technology solutions specifically designed for the public safety industry. APS can create an electronic version of any agency report, citation/ticket, form, or other document. APS forms can be utilized as stand-alone documents (where officers enter the information) or they can be created as forms to be populated with information returned from the mobile data queries or driver's license information.</p>	
<p>Medibase Medical - Patient ID</p>	<p><u>link</u> Without a single keystroke, Medibase's BASEscan™ product enables Healthcare registrars to accurately identify patients who already exist in the MPI simply by swiping their driver's license. Accurate identification prevents fragmentation of a patient's medical history, helps to improve patient safety, and eliminates the need for costly MPI cleanup projects.</p>	
<p>OTech Group LLC Kiosk Applications</p>	<p><u>link</u> OTech provides self check-in kiosk solutions for physician offices. Patients can identify themselves via a drivers license swipe, arrive themselves for an appointment, verify demographic and insurance coverage and pay co-pays and patient due balances all within 30 seconds.</p>	
<p>Custom Technical Services CUSTOM SOFTWARE</p>	<p><u>link</u> Since 1992, CTS has been designing and developing custom proprietary software applications for businesses nationwide. CTS has experience and expert knowledge in writing applications for E-seeK's M200, M250 and M300.</p>	
<p>Jolly Visitor Management Software ID Card Software</p>	<p><u>link</u> Jolly is the world leader in ID card, visitor management and event registration software. Jolly utilizes the E-Seek 250 for the fast registration of cardholders, visitors and attendees: a license is scanned, a photo is (optionally) captured and an ID card, visitors badge or attendee badge is automatically produced. Because license scanning is a fully integrated step in the registration process, it is fast, easy to configure and easy to understand.</p>	
<p>Tokenworks, Inc Automatic Form Filler</p>	<p><u>link</u> IDWedge® software automatically fills forms in any application or webpage with data from a driver's license or credit card. Any Windows form that accepts keyboard input can be auto-filled. ID Wedge more accurately does in 3 seconds what an operator does in 3 minutes. Hotels and Facilities use it to automatically fill in visitor registration forms. Casinos use it to automatically fill in player card registration forms. IDWedge saves times, reduces input error and quickly pays for itself.</p>
